SYNOPSIS	Pilot seeking to lead, grow, and inspire as a professional aviator. Currently self employed as an independent flight instructor. Tech industry veteran with numerous wins in engineering career.	
PILOT PROFILE	Commercial Pilot: ASEL/AMEL #4350298 Flight Instructor: CFI/CFII/MEI #4350298 REED 2027-07-31 Ground Instructor: AIGI, Part 107 UAS First Class Medical (corrective lenses required) High Performance, Complex, High Altitude endorsements <i>No accidents, incidents, violations or deviations. Current as of October 20th, 2025</i>	
FLYING	• Co-owner of a 1978 PA-32RT-300 Piper Lance II. 377.4h in type. • Manage annual inspections and equipment upgrades for numerous aircraft. • Participate in owner-assisted maintenance and upgrades. • Instrument current as of this writing. • Multi Engine Instructor (MEI) completed in July 2025. • 1039.8 total, 923.2 PIC, 485.8 dual given. • 407.6h in C172, 37.7h C152, 44.4h C182. • 7.7 turbine time in TBM7. • Dual given in: PA32/P32T, PA46, C172, C182, PA28 family, Mooney M20 family, C206, Bonanza family (BE33, BE35, BE36), Cirrus SR22, Gruman AA5, Redbird TD2 sim, RealSimGear Cirrus AATD.	
TECHNICAL EXPERIENCE	President Soltren Consulting LLC, Cedar Park, TX	Jan 2016 - Present
	• Full Time Flight Instructor since December 2024. Two students finished! • Flight instruction for private, instrument, and commercial students since 2024. • Special emphasis on instruction of senior pilots in owner-flown, technically advanced, high performance, complex aircraft in actual IMC. • Hardware and firmware development for consumer electronics.	
	Connectivity Engineer ForeFlight	Jan 2024 - Nov 2024
	• Led third party hardware integration efforts. Avionics lab manager.	
	Senior Software Engineer and Team Lead Roku	Jun 2020 - Sep 2023
	• Video, audio, and firmware development in C++21. • Software lead for YouTube certification for three generations of player platforms. • Launch lead for Roku Express 4K+ streaming stick.	
	AI Deep Learning Software Engineer Intel Corp.	Aug 2017 - Feb 2019
	• Wrote algorithm and driver code for an AI accelerator chip.	
	Senior System Software Engineer NVIDIA Corporation	May 2011 - Apr 2016
	• Video decode and post-processing technical lead. • Added H.265/HEVC decode support for Linux. • Feature work and bug fixing in OpenGL, X Windows, and kernel drivers. • Mentored numerous junior engineers over the years.	

COMMUNITY

Instructor Pilot: Garmin G1000, Cessna 172, 182, 206

Transport Mission and Orientation Pilot

Civil Air Patrol TX-352

Mar 2025 - Present

- Working toward mission pilot and check pilot.

President

Experimental Aircraft Association (EAA) 1607, Lago Vista, TX Jun 2023 - Present

- Coordinate and organize chapter events.

Weekend Residential Faculty

Eastside College Preparatory School, East Palo Alto, CA

Aug 2012 - Jul 2013

- Operated weekend dormitory program for high school students.

Big Brother

Big Brothers and Big Sisters of the Bay Area, Milpitas, CA

Jan 2011 - Dec 2012

- Served as friend and mentor to a young man through his formative years.

Trip Leader

Bike & Build, Inc., Brooklyn, NY and Philadelphia, PA

Jan 2006 - Aug 2008

- Planned, led, and completed two cross-USA charity bicycle tours for young adults.

EDUCATION

Massachusetts Institute of Technology, Cambridge, MA

Master of Engineering and S.B., Electrical Engineering and Computer Science

Grad level course work in operating systems and communication systems. Build a kernel and hypervisor in C.

Lab assistant for undergraduate microcontroller/firmware course.

CITIZENSHIP

United States
